Handwriting
Improvement

For 2nd - 9th Std.

www.alohagujarat.com

Scientifically designed for the Age 6 - 14 years, spread over 20 months.

In today's world the importance of English as an international language of progress is well acknowledged. In every sphere of activity from academics and the work place to mere social interaction, proficiency in English is absolutely imperative.

Incorporating the best foreign language teaching methodology, English Smart has been specially designed for the Indian sub-continent.

The program trains students to acquire a level of competence in English through a structured syllabus. Starting from inculcating the basic ability to speak the language, the course instills the confidence in students to graduate to an ability to write and express themselves with effortless fluency.

ALOHA made
English Sooooo.....
EASY

Programme Benefits

- Is tailored for children studying in English or Gujarati medium school, who face difficulties in expressing themselves in both the oral and written forms of the language.
- The child will be trained to interact and communicate orally in common day to day situations.
- The child will be able to understand and respond both orally and writing. Basic foundational vocabulary is formed.
- The child will be able to freely express thoughts, ideas and feelings with speed and fluency.
- The child will be taught to write effectively and clearly. Essential writing skills are developed.
